## Newport Goes Into Ecstasies Over the Winsome Baby Son of A. G. Vanderbilt

Newport, R. I., July 24.—Ever since his arrival in the millionaires' colony the ten-months-old son of Mr. and Mrs. Alfred Gwynne Vanderbilt has been the object of enough petting to turn the head of even a child of fortune. The new Vanderbilt heir whose name is Alfred Gwynne Vanderbilt, Jr., and who is called "Bebe" by his fond parents and their friends is a remarkably big baby for his age. He was made much of coming over from England on the French liner

Three Separate Inquiries Under Way at Binghamton.

AGED HEAD OF FIRM SUMMONED

Number of Lives Lost in Factory Fire Conservatively Estimated at Sixty-five—Gang of Men Searching Smoldering Ruins For Bodies of Victims—Grosses Find Mark the Work of the Laborers.

Binghamton, N. Y., July 24.—After several estimates had been made as to the number of lives lost in the fire that flattened the Binghamton Clothing company's plant the list of probable dead was increased to 65. Of this number only a few have been positively identified. More than 30 bodies have been recovered from the ruins. All of them were so charred and maimed that recognition was out of the question.

All day a gang of old men, the only ones Mayor Irving could muster for the work, scopped bricks from the spot where the building once stood. Twelve bodies were picked from a space about 10 by 10 feet square. Ear rings were found in the ears of one corpse and by them Mrs. Mary Pryor, the heroic firewoman of the fourth

## KNOCK 'EM OFF IN BIG CHUNKS

Slow Progress Made in Bringing Both Sides Together.

New York, July 24.—Despite the announced decision of the officials of the Erie railroad that the Erie will abide by the award of the arbitrators in the case of the demands of the conductors and trainmen on the other eastern railroads, the government mediators appeared to be making slow progress in bringing both sides together as to the questions to be arbitrated. Several conferences were held between the representatives of the railway employees and members of the mediation board, but no progress was made toward straightening the tangle caused by the managers' committee of the railroads insisting that the eight propositions of the railroads should be included in the arbitration agreement as well as the demands of the men.

Lee and Garretson, the presidents respectively of the trainmen's and conductors' organizations, said that the truce with the railroads still continues. It is said that the railroads are willing to drop three of the eight demands.

## DICTATOR HUERTA IS NOW TO STAGE LAST STAND ACT

Condition of Foreigners in Torreon and Madero Continues Desperate—President Wilson Places Embargo on Shipment of Arms and Ammunition to the Huerta Regime.

### Uncle Sam Again Seeks To Avoid Any Intervention

Mexican Dictator Plans Now to Resign the Presidency and Take the Field at the Head of the Federal Troops and Wage a Relentless Campaign Against the Insurrectos.

Washington, July 24.—An American who arrived in Washington from Mexico City tonight is authority for the statement that General Huerta has decided upon a desperate move to retain his grip upon the Mexican government. He is to relinquish the Presidency to Secretary of State Urrutia and take personal command of the Federal troops. His plan is to proceed against the revolutionists with the greatest vigor. If his campaign fails it will be his last stand.

Washington, July 24.—Realizing the growth of sentiment in Congress in favor of intervention in Mexico and recognizing the drift of events in that direction, President Wilson intends to exhaust all his resources before acquiescing in such a drastic step by this government.

At the same time he is not overlooking the advisability of preparing for such an eventuality, and with this in mind is keeping in close touch with leading officers of the army and navy.

The latest officer to be summoned to Washington for a military conference is Rear Admiral Frank D. Beatty, commander of the Fourth Division of the Atlantic Fleet, who was ordered to proceed from Newport, R. I., today.

Beatty arrived at Newport on Monday with his flagship Minnesota, from Vera Cruz, Mexico, where the battle ship has been stationed for two months.

As his first move toward ameliorating the situation in Mexico so as to avert intervention, the President today decided to place an inhibition against the shipment of arms into Mexico from this country.

### AUTHORITY IS GIVEN.

Under a law passed a little over a year ago, the President was authorized by Congress to place such an embargo upon shipments of this character as in his judgment was justified by conditions existing in that Republic.

Acting upon that authority President Taft issued orders stopping the transportation of arms across the frontier which were consigned to Mexican revolutionists. At that time Madero was President, and Mr. Taft's idea was that the insurrectionary movement that had been started against Madero would be seriously checked by such an order.

However, the rebellion proved successful and General Huerta fought his way into the Presidency. Since then President Wilson has been carrying out the policy of his predecessor, and it has been with the greatest difficulty that the revolutionists have been able to obtain fresh supplies of the munitions of war from the United States.

Now, as indicated, the President has resolved to prohibit the shipment of arms to the Huerta government also, and thus place both sides on an equal footing in so far as the purchase of war supplies in this country is concerned.

### NO FAVORS TO BE SHOWN.

Since he has declined to recognize Huerta as the lawful President of Mexico, Mr. Wilson has been convinced that there should be no discrimination in his favor as against the element that is trying to oust him from office.

It was at first reported that the President intended to lift

MRS. G. C. PHIPPS

Denies She Is Married to Edward E. D. Powell of Denver.

Mrs. Genevieve Chandler Phipps, formerly wife of Lawrence C. Phipps, the steel manufacturer of Pittsburgh, has just arrived in this country from Europe. She was reported to have been married to Edward E. D. Powell, both have appealed to the press to deny the report. At the time of her divorce it is said that \$750,000 was settled on Mrs. Phipps, with the provision that she was to lose the income of \$20,000 of the amount should she marry again.

## WOULD STRIKE IN NEW PLACE

### NEW ATTACK MADE ON CURRENCY BILL

Ohlson Would Reopen Principles Advocated By Wilson.

Washington, July 24.—Representative Bulkley of Ohio and other members of the house banking and currency committee indicate a desire to reopen the discussion of all the principles underlying the administration currency bill. Representative Bulkley gave notice that he is not yet prepared to decide his position in relation to the policy of placing the entire financial system of the country in the hands of a government-controlled board, as proposed in the Glass bill, and asked that the question of the powers and makeup of the proposed federal reserve board be again opened up for general discussion. This is a basic point in the administration bill and one which President Wilson has championed in no uncertain way.

## STILL HAMMERING AWAY

### IN REFERENDUM FRAUDS

Overtures For Confession Reported Made by a Suspect.

Columbus, O., July 24.—Overtures for a confession of Walter B. Vincent of Cincinnati, held in the Franklin county jail on charges of perjury in connection with the referendum frauds, are said to have been made by Vincent's attorney, H. S. Kerr, to the attorney general.

Governor Cox went to Cleveland to confer with Prosecuting Attorney Locher relative to the prosecution of the higher-ups in connection with the referendum scandal.

A warrant charging Attorney Samuel Heimlich of Cleveland with perjury was withdrawn because a Chillicothe resident, whose name he was alleged to have forged, remembered that he had signed the petition.

Investigation of signatures to the initiated newspaper bill, which were filed last fall, is said to reveal the fact that thousands of names, purporting to have been obtained in Toledo, are forgeries.

### Mits Leases at Buckeye Lake.

Newark, O., July 24.—If a decision of the court of appeals filed here is upheld in the higher courts, holders of land in the borrow pits along the banks of Buckeye lake, who obtained their titles by government patent, are at liberty to oust tenants occupying the lands by lease from the state.

## ROCKY REEFS PROVE DOOM OF UNKNOWN OCEAN CRAFT

### GOES TO BOTTOM OF THE OCEAN

Unknown Four Masted Vessel Is Rammed During a Fog.

### IN COLLISION WITH STEAMER

Schooner Came Out of the Fog as Suddenly as if by Magic and Was Hit With Terrific Force—No Trace of the Ship or Her Small Boats Found by the Freighter, Which Was Badly Damaged.

Boston, July 24.—There rests at the bottom of the Atlantic ocean, four miles north of Nantucket Head, a four-masted sailing vessel which crashed into the freighter Sloterdijk, in the dense fog. The Sloterdijk raced into Boston harbor under full steam with a gaping hole amidships that was admitting great quantities of water, and she is now fast at the Mystic docks.

The Sloterdijk of the Holland-American line left Boston for Philadelphia to discharge a portion of her cargo that remained and from that port was to take on more and proceed to Antwerp. She cleared the harbor and vanished into the night—and into a dense fog that hung over the sound.

Suddenly she came in range of the Nantucket lightship, and from her peaks the lightkeeper saw flying signal flags that spelled disaster. Immediately word was flashed to Boston and from this port a fleet of tugs hastened to the scene and were followed a short time later by the revenue cutter Gresham. Under her own steam the Sloterdijk was headed into Massachusetts bay.

Captain Metz said that after the crash he reversed his engines and immediately called all hands on deck. The big freighter backed off and on her decks were strewn the relics of the crash. The schooner came out of the fog as suddenly as if by magic. From the brig of the Sloterdijk she could not be seen until the crash, and then they barely succeeded in making out four masts with all sails set. The great bowsprit raked the bridge of the Sloterdijk where Captain Metz was standing at the wheel and nearly threw him into the sea. The force of the collision was terrific. From the steamer's deck an effort was made to locate the schooner, but nowhere could a trace of her be found. Captain Metz cruised about in the vicinity for hours looking for the schooner or her small boats, but no trace of the schooner nor her boats had been found. She unquestionably went down.

### ALASKAN BILL LAUNCHED

Provides For Public Ownership of Railroads and Coal Mines.

Washington, July 24.—Representative Bryan of Washington introduced in the house the Poindexter bill, providing for government ownership and operation of railroads and coal mines in Alaska. The measure contains many novel features, such as regulation of hours of labor, profit-sharing plans for employees in coal mines and drastic regulations to prevent any private interests gaining advantages in Alaskan mining resources.

# MAYOR O. W. CREATH ARRESTED THURSDAY ON THE AFFIDAVIT OF POLICE CHIEF M'COY

Charged That the Bloomingburg Mayor on the Third Day of July Last Wilfully, Knowingly and Violently Did Resist in the Execution of His Office, One F. M. McCoy.

## ECHO OF ATTEMPT TO ARREST ALLEGED BURNS DETECTIVES

Bloomingburg Mayor Stamps the Prosecution as "A Dirty Outrage". Creath Appeared Here This Morning and Asked a Continuance of One Week, Which was Granted.

An affidavit was filed by Chief of Police F. M. McCoy before Justice T. N. Craig late Wednesday afternoon, charging Mayor O. W. Creath of Bloomingburg with resisting an officer.

The offense charged is alleged to have taken place on July 3rd when Chief McCoy, armed with warrants issued from Mayor Smith's court and calling for the arrest of Burns detectives, J. O. Carson, Lawrence Emerson and Fred A. Speckman, appeared at Bloomingburg and sought the arrest of the three men, but Mayor Creath refused to permit the arrest holding that the men were under the jurisdiction of his court.

A warrant for the arrest of Mayor Creath was issued upon the affidavit filed Wednesday evening, and placed in the hands of Deputy Sheriff Nelson, who telephoned to Mayor Creath and informed him that he held a warrant for his arrest. Mayor Creath promptly informed him that he would appear before Justice Craig Thursday morning.

Thursday morning shortly after nine o'clock Mayor Creath appeared before Justice Craig and asked that the case be continued until Friday morning of next week at nine o'clock. The case was accordingly set for Friday morning, August 1st, and Mayor Creath was allowed to go on his own recognizance. Bond fixed at \$100.00.

"It's a dirty outrage," said Mayor Creath in speaking of the affair while in this city, "and is nothing else but an attempt to get back at me because I have done my duty as I have seen it."

Speaking further of the affair Mayor Creath stated that Wednesday he was called by Attorney C. E. Baughn who asked him to communicate with the Xenia workhouse and have Alfred Brown released, and that when he informed Mr. Baughn that he would not do so he was told that he "had better do it."

Justice Craig stated that Attorney Baughn had drawn the affidavit sworn to by Chief McCoy and filed Wednesday afternoon.

Attorney Humphrey Jones, of this city, is representing Mayor Creath and will conduct his defense.

Attorney Baughn denies that he made any threats whatever to Mayor Creath in regard to the Brown case. He says he did call Mayor Creath on Wednesday and asked him to sign an order for the release of Brown, and that he told Mayor Creath at that time that the only reason he called him at all in regard to the Brown case was because he thought that he (Creath) should request the release of Brown—that it would be the best thing for him to do as ninety-five per cent of the people of Fayette county were in favor of his release.

Mayor Creath cannot truthfully say, Mr. Baughn stated, that I made any threats whatever,

## WHEAT YIELDS ABOVE THE AVERAGE

Although threshing is by no means finished in Fayette county and many farmers are just starting an unusual number of big yields have been reported. The weather, the unusual flood conditions and the joint work in some localities make it impossible this early to estimate accurately the average yield in the county.

This week's threshing has turned out no bigger yields than some of the early threshing, but we add some extra good ones to those learned earlier.

M. L. Dickey, Bloomingburg, 25½ bushels on 100 acres; Chas. Ford and J. W. Jaynes, 27 bushels on 70 acres; John L. Barnes and son, Harry, 30 bushels on 59 acres; Frank Osborn, 27 bushels on 45 acres; Milledgeville, Dr. Grant Marchant, 25 bushels on 50 acres; Nathan Creamer and son, Jeffersonville, 25 bushels on 130 acres; Virgil Bryan and L. Cook, White Pike, 32 bushels on 35 acres; Clarke Post, 26½ on 27 acres; H. D. Rodgers, Good Hope, 25 bushels on 40 acres; Harry Taylor and John Marchant, 25 bushels on 67 acres.

The early threshing returns report a number of yields far above the average. Mr. Humphrey Jones and Pummell on the Jones' farm above Bloomingburg, had 38 bushels on 60 acres and 28 bushels on 204 acres; F. W. Cline and Brenner, 27½ bushels on 100 acres; Rollo Marchant and Mat McDonald, 27½ bushels on 65 acres; R. W. Marchant and Kingery Bros., Octa, 27 bushels on 50 acres; S. W. Cissna and Rayburn, 27 bushels on 30 acres; Harry F. Brown, 27 bushels on 38 acres; H. K. Stewart, 25½ bushels on 46 acres.

On fields of 25 acres or under, W. F. Baker, Prairie pike, had 31 bushels; the Penn farm, operated by Herbert Shepherd, 29 bushels; Harris Marchant, 30 bushels; Wm. Thompson, 33 bushels; Noah Smith and John Mortar, 30 bushels; Joe Marks and Krebs, 28 bushels; C. L. Lafollette and G. Cook, 27 bushels; John DeWitt, 26 bushels; the Parrott farm, operated by Elton Marine, 25½ bushels; Chas. Ford and J. W. Jones, 25 bushels; Russell McCoy, 28½ bushels; Wm. Smith and George Wolfe, 34 bushels; Harry Taylor, 34 bushels; Wm. Sheridan and Son, one small field, 45 acres, others, 25 bushels; Wm. Thornton & C. Paenake, 30 bushels; Ferneau and Geo. Hidy, 27 bushels; Mrs. Hibben Ervin and B. Graves, 27½ bushels; Ralph Braden, Good Hope, 27 bushels; Geo. Moore, 27 bushels; George Geesling, Madison Mills, 27 bushels; Harve Smalley, Good Hope, 26 bushels; Ed Sheridan, 25; Henry Minton, 25½; Clint Ray, Cunningham, 30; Russel McCoy, Good Hope, 28½.

Williams and Clark's "Acorn" or high grade fertilizers of the same manufacture, were used on all of these fields, and the wheat grown with these goods is also holding up in weight tests.

The highest testing wheat reported is Tom McDonald's, testing 63; Harris Marchant and Oth. Dawson had wheat that tested 62 and the Penn-Shepherd wheat tested highest at Bloomingburg and Chas. Ford's at Milledgeville.

Williams & Clark's fertilizers delivered at your nearest station if orders are given early.

## WHEAT THRESHING DELAYED ONCE MORE

Wheat threshing was again delayed by the rain Wednesday night, and it will be a day or two before it can be resumed.

With the favorable weather the first half of the week tens of thousands of bushels were threshed in this county and if the good weather had continued the remainder of the week the greater per cent of the crop would have been safely stored away.

All elevators in the county have been rushed the past few days, and trouble in securing cars has been experienced by some elevators.

## In Social Circles

Mrs. George Jackson and daughter, Miss Emma, gave two musicales Thursday, one in the morning and one in the afternoon, in compliment to Mrs. Jackson's niece, Miss Louise Bradford, of Champaign, Ill.

Both affairs were of distinctive pleasure and charmingly appointed. The handsome Jackson home accommodated the guests most comfortably and was redolent with summer bloom. In the double parlors ward roses furnished artistic decoration; wild flowers were unique in the dining room and white lilies and pink gladioli in the reception hall.

The guests were indebted to the honor guest and Miss Dorothy Fullerton for a recherche musical program of vocal and piano music. Miss Bradford has a lovely voice, a dramatic soprano, of beautiful tone quality and plasticity. She sings with the artistic ease and charm of the finished artist and the guests were equally delighted with the voice and the attractive personality of the young singer.

Among her most brilliant numbers were, "When Phyllis Takes Her Vocal Lesson," Louise Ayres Garnett, "Butterflies," C. Mawson-Marks and "What the Chimney Sang," Gertrude Griswold, "Sing On," L. Denza, was especially admired.

Miss Dorothy Fullerton was remarkably sympathetic in her accompaniments for so young a pianist. She also added to the program a beautiful piano solo, "Fourth Barcarolle," Godard, played with brilliant execution.

A delicious summer collation was served and fruit punch on taps during both affairs. Ward roses were the guest favors.

Assisting in the hospitalities were Mrs. Frank M. Fullerton, Mrs. Frank S. Jackson and Mrs. Howard Griffiths.

Among the out-of-town guests were Mrs. Chas. Haynes, Hillsboro; Mrs. W. W. Westerfield, New Orleans; Mrs. Walling, Muncie, Ind.; Miss Campbell, Des Moines, Ia.; Miss Ruth Glascock, Cincinnati; Miss Mary Wilson, Ada.

### PERSONAL PARAGRAPHS

### LOCAL MAN SUED IN ATHENS COUNTY

Mary E. Logan has commenced a suit against A. L. Logan of Washington C. H., for the recovery of \$1,359, with six per cent interest from November 15, 1904, and for costs. The basis of the action is on a promissory note.

The petition states that no part of the note has been paid; that plaintiff has demanded payment thereof from defendant; that there is now due thereon \$1359 with six per cent interest from November 15, 1904; that defendant signed said note with his initials as follows to-wit: "A. L. Logan," and the plaintiff cannot state the first name of defendant for want of means of information—Athens Messenger.

### GREAT CORN CROP VIRTUALLY ASSURED

Coming immediately after the bumper wheat crop is one of the largest corn crops this county has produced in many years. A bumper corn crop is now almost a surety unless something very uncommon and unexpected injures the rapidly growing crop.

Great fields of the growing corn present a beautiful picture and it is generally conceded that prospects for a big crop were never brighter at this time of the year.

### SUES TO RECOVER ON PROMISSORY NOTE

In common pleas court Harry M. Rankin has filed suit for the recovery of \$300 with 8 per cent interest from Nov. 23, 1912, and for the sum of \$13.85 with interest from February 11, 1913, and also asks that certain property belonging to the defendants, Chas. O. Harper and Blanche Harper, be sold. The property is located in Allen town.

The plaintiff states that the amount of \$300 with interest from November 23, 1912, is due him on a promissory note, and that the \$13.85 represents the amount of back taxes he had paid on the property upon which he held a lien.

### DEAD MAN FORMERLY FROM NEW HOLLAND

Concerning the recent death of Grant Shipley, of New Holland, who died in Sidney, Ohio, and who will be remembered by many citizens in Washington and Fayette county, the Sidney News says:

"The unknown man who died last Saturday morning at the lockup has been identified as Grant Shipley, aged forty-two years, of New Holland, Pickaway county.

"The deceased came from well-to-do parents and has three sisters living in Columbus. His wife and one daughter, from whom he had separated for some time, reside at Youngstown. It has been learned that Shipley was on his way to Lima, where he was employed about the race track, the Lima races being on this week.

"Word has been received that his sisters will take charge of the body, which is still at Fretz and Lininger's undertaking parlors, and ship it to New Holland for interment."

## Speaking of Candidates

People generally are fast learning, by experience, to judge the sincerity of a man's protestations by the effect which his attitude will have on his political or personal fortunes.

Many men have already learned by the bitter disappointments of the past that they have placed entirely too much dependence in the assertions of candidates for office omitting entirely from the test for sincerity the element of personal interest.

Examining the assertions of seekers after office in the white light of selfish interest will often disclose the insincerity of private declarations.

Especially is this true where candidates for office seeking to corral to their banner elements diametrically opposed to each other on principle.

Time and experience have demonstrated to the voters that a little investigation at the outset of a campaign—an ascertainment of who is furnishing the bulk of the support will often disclose an illy concealed purpose to deal doubly.

Generally the candidate who has no avowed affiliations and is able to rally discordant elements to his support, is the one who proves to be the biggest disappointment, when the time comes to disclose his position.

In these days, no man who is unwilling to openly announce his position and the policy he will pursue when in office is entitled to the vote of the citizens.

Open declarations of beliefs and intentions are helpful. They enable the voters to choose just who they will have to serve them and save many misunderstandings in the future.

The man who refuses to make an open declaration and pretends friendship for both sides of an issue, be it either a political or a moral issue, is not a safe man to entrust with a public office.

The time is near at hand, if in fact, it is not already here, when candidates for office, great or petty must declare themselves. The establishment of that rule will prevent many a man who endeavors to succeed by resort to double dealing from attaining his ambition.

A man who will be guilty of double dealing before an election will be guilty of the same thing after the election.

A man who is willing to succeed by promising all, who has no opinion on vital questions will make a miserable failure as a public official and will bring disappointment and humiliation to those who are short sighted enough to be misled by his unsupported assertions made in private.

No man can serve two masters, holds good in politics, as it does in the other affairs of life.

Don't Seek  
to Destroy  
Our  
Institutions

Popular  
Fancies  
Are  
Dangerous

By Chief Justice EDWARD D. WHITE of the United States Supreme Court

THE AMERICAN PEOPLE MUST FROWN DOWN THIS ATTEMPT WHICH IS GROWING IN THE LAND TO ATTACK THE PRINCIPLES OF THE GOVERNMENT.

The very foundation of our free institutions was the belief not in the march of a triumphant democracy, not in the march of popular feeling and popular conduct unrestrained, but that MEN COULD RESTRAIN THEMSELVES, that great principles could be written into our national life which could steer and guide and restrain and hold us and lead us on free from anarchy, full of liberty, with life and property and everything that blesses mankind saved and secured.

Look around in this great land today. Where is there a country like this? THE WORLD HAS NEVER SEEN THE EQUAL OF IT, and the world will never see its endurance if the American people forget the foundation principles of their free institutions because of what they imagine to be an evil here and an evil there and seek to PULL DOWN THE PILLARS OF THE TEMPLE in order that they may destroy what they suppose to be a rat within the house.

Let us FROWN DOWN THIS ATTEMPT which is growing in the land. Many thoughtless persons today suppose that everything that is wrong is wrong in the institutions, when without the institutions there WOULD BE NO RIGHT AND EVERYTHING WRONG.

## Poetry For Today

## THE BEST POLICY.

If an income tax they frame,  
And you find they've got your name  
Will you truthfully disclose  
All that in your pocket goes?  
Will you count each fee you earned,  
Tell how much your stocks returned?  
Will you, on your honor true,  
Pay the utmost cent that's due?

Tell the truth, sir, if you can!  
Tell the whole truth like a man!  
Would you stoop to lies, forsooth?  
Tell the truth!

If to wed a girl you seek,  
And the maiden thus should speak:  
"When we're married, will you be  
Just as you are now to me?  
Will you bring me sweets and flowers  
Sit and hold my hand for hours?  
Will you take me to the play,  
Never care from me to stray?"

Tell the truth, sir, like a man!  
Tell the whole truth if you can!  
Falsehood is a serpent's tooth—  
Tell the truth!

—Judge.

## JINX IS DISCOVERED IN GERMAN'S CLOCK

Struck Thirteen on Friday and Brought Much Bad Luck.

Amite City, La.—George Zollenberg returned to his home near this city after another ineffectual attempt to have the jinx taken out of his grand father's clock. The ancient timepiece is to blame for a long train of misfortunes that started Friday, June 13, 1913. The following details have been supplied by Mr. Zollenberg.

The clock was brought to this country by Mr. Zollenberg from the fatherland. The old time mill had never missed a tick or let a second slip by unrecorded until noon on that fatal Friday. While waiting for dinner Zollenberg was surprised and alarmed to hear the old heirloom strike thirteen times for noon.

"You'd better take that to some clock mender in Hammond," said the watch fixer, and he put his hand behind him as though the old timepiece were hot. Zollenberg took the clock to Hammond and, not wishing to have it fixed under false pretenses, told the jewelers there about its having struck thirteen. Neither of the Hammond clock-smiths would have touched the hoodoo with a fishing pole.

Since then Zollenberg has taken the clock to every expert near here, only to have the job declined. That is not all. Here are a few of the things that have happened since, for which he blames the clock:

His rich mother-in-law departed this life back in Germany without leaving him a red penny.

His valued hen (the one that walks with a limp) deserted her nest after sitting patiently for two and a half weeks on thirteen—there it is again—thoroughbred Cochon china eggs.

His hired girl eloped with his best stable hand.

Twelve kittens fell in a well near his home and were drowned.

His brindle cow Bossie gave birth to triplets, all of which were black as coal dust and males.

## PLANS FOR CELEBRATION.

American Committee Will Erect United States-Canadian Memorial Arch.

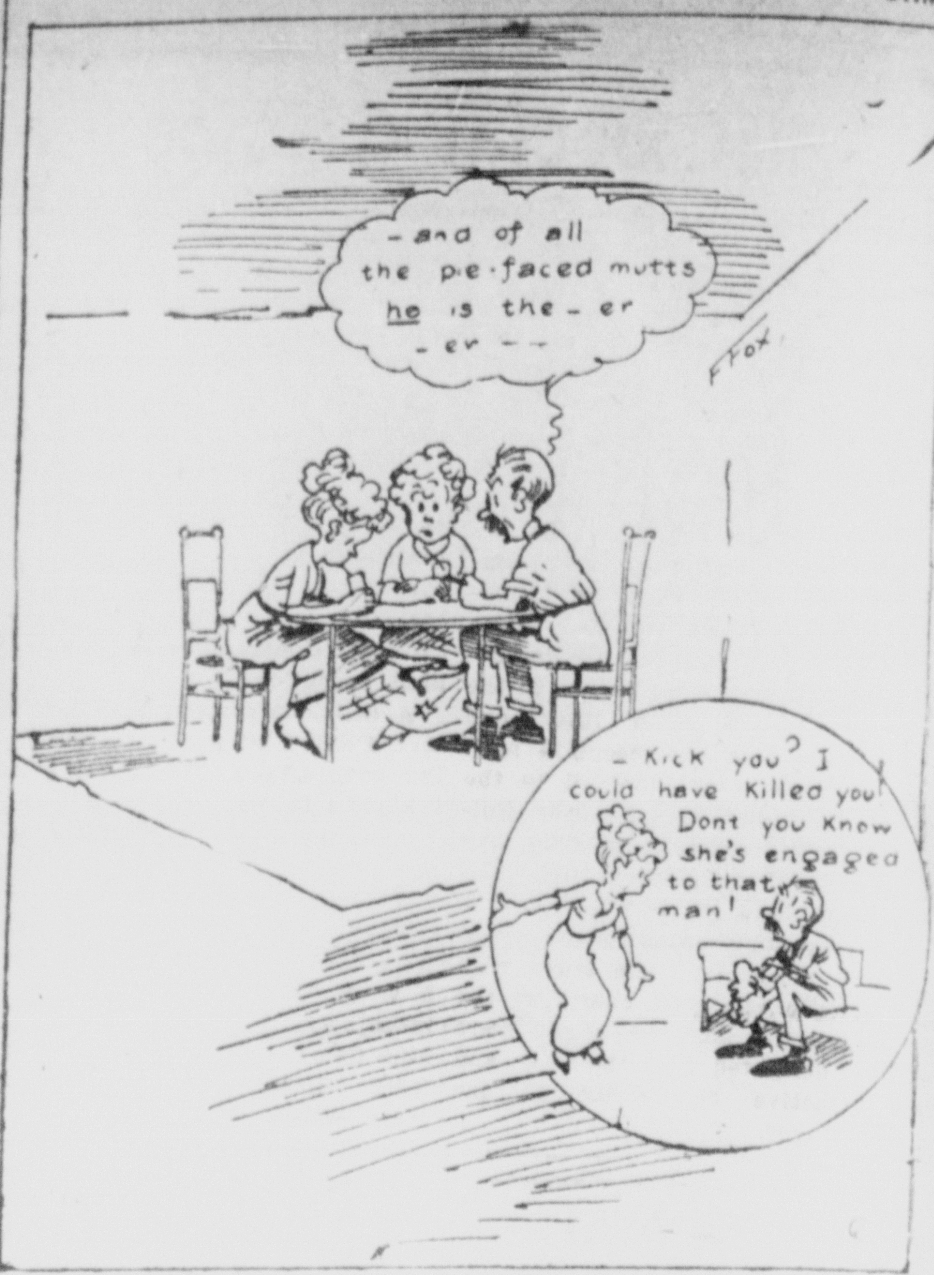

Duluth, Minn.—The American committee in charge of the celebration of 100 years of peace between English speaking peoples is planning a United States-Canada memorial arch or bridge as a feature of the event.

The bridge will be located at the point where the Duluth and St. Vincent road will join the road to Winnipeg. It will be so placed as to command the junction of both roads with a road leading through North Dakota and South Dakota.

A great lakes demonstration, participated in by ships of the United States and Canada, also is planned.

# OHIO HAPPENINGS

**Hogan On McReynolds.**  
Columbus, O., July 24.—Before the Jefferson club Attorney General Hogan made an address against the short ballot. He used the cabinet trouble of President Wilson and Attorney General McReynolds and the Duggan-Camletti affair as an example to indicate that appointed officers are less efficient than those elected. Mr. Hogan announced he was not a candidate for re-election to his present position.

**For Revision of Judges' Salaries.**  
Columbus, O., July 24.—Governor Orr has named Warren J. Duffy of Toledo, Thomas M. Gregory of Cincinnati, Daniel F. Mooney of St. Marys, M. A. Broadstone of Xenia, Frank H. Reighard of Wauseon and W. B. Kilpatrick of Warren as members of the committee to prepare a bill revising the salaries of common pleas judges throughout Ohio. The bill will be presented at the next session of the legislature.

**Judge Spiegel For Mayor.**  
Cincinnati, O., July 24.—The Republican organization of Cincinnati has endorsed Superior Court Judge Frederick S. Spiegel for the Republican nomination for mayor. The decision was made by the advisory committee of the central committee and the recommendation will be supported generally by the members of the organization.

**Jennings Re-elected.**  
Columbus, O., July 24.—Malcolm Jennings of Columbus was re-elected president of the Ohio Select List of Daily Newspapers at the annual meeting at the Neil House. Other officers selected were C. H. Spencer of the Newark Advocate, secretary, and R. C. Snyder of the Norwalk Reflector-Herald, treasurer.

**Join Teamsters' Strike.**  
Cincinnati, O., July 24.—Additional drivers joined the teamsters' strike and it is claimed by the union men that 3,000 men are now out. So far not a single case of disorder has been reported to the police. The team owners continue to hold firm, insisting that they will not recognize the union.

Columbus, O., July 24.—From present indications Byron Glendening, former president of the Duckworth club of Cincinnati, and former representative of Mercer county in the general assembly, may be the third member of the state liquor licensing board.

**Woman Held For Perjury.**  
Newark, O., July 24.—Mrs. William Miles of Hanover was arrested, charged with perjury. It is charged that Mrs. Miles swore that her daughter, Alice Miles, was 18 years old when Lewis Priest applied for a marriage license. The girl is said to be 13.

**Hillsboro Student Killed.**  
Ashtabula, O., July 24.—Wallace Rogers, 18, of Hillsboro, O., was killed here by falling into the hold of the steamer James C. Wallace. Rogers was working as an ordinary seaman to earn money to pay his way through college.

**Drowned Trying to Save Companion.**  
Chillicothe, O., July 24.—Horace Richard Farmer, 30, of Columbus, was drowned in an effort to save a relative from drowning in the Scioto river at Ridgeville, near Waverly. The relative was saved.

floor, was identified. One arm was picked up detached from the body. On the little finger was a small diamond ring that may identify it. Two bodies, or rather the trunks of them, were found on which were purses. The finding of these purses clearly proved what several of the survivors have testified that a great many of the girls who had been working on the fourth floor stopped on the third to visit the locker room and obtain their bonnets, street clothes and valuables. It was the loss of a few minutes caused by their stop that resulted in their death.

**Three Inquests On.**  
Coroner Seymour of Whitney Point came to town and arranged for the inquest this afternoon in the grand jury room at the county courthouse. Fire Chief Hoag got word from Deputy State Fire Marshal Roesch that he is coming to Binghamton to represent State Fire Marshal Whelan and conduct a separate investigation. He wants to know why it took the Binghamton fire department 20 minutes to respond to a fire only half a mile from the central station house.

Deputy Factory Inspector Nash, who was the last inspector to pass on the plant of the Binghamton Clothing company, heard from Albany that Acting Labor Commissioner Rogers will also be here to find out how it happened that a building officially inspected by a state deputy not a year ago and unofficially passed on within the last month, could burn up in a single puff, as it were.

The coroner says that he is going to place the responsibility some place. If it is possible to place it at all. He started by issuing scores of subpoenas. The first one went to Reed Freeman, the 66-year-old president of the firm.

## GOVERNOR BILL HANDS OUT FEW

**SULZER ON THE FIRE**

Blames Senate and Murphy For Condition of Labor Department.

Albany, N. Y., July 24.—Governor Sulzer attributes the Binghamton fire to the demoralized conditions of the state labor department, which for some time past has been without a real head. The governor says: "It is a sad commentary on the present condition of the state labor department, which is tied up so that it can not execute laws on the statute books to prevent these tragedies. The fact is that Mr. Murphy will not permit his state senate to confirm the nominations of Mr. Mitchell nor Mr. Lynch as state labor commissioner, because he can't make me name his man for this position."

# WOULD YOU LIKE TO HAVE \$5,000 A YEAR?

Then purchase on easy terms 10 acres of North Yakima (Washington) land. This one act of yours will bring you more than \$5000 each year as long as you live, and provide a great legacy for your children.

## Elevation and Product

This land is situated in the heart of the world's greatest fruit country, quite near Nob Hill, the most valuable and most highly developed agricultural land in the world. Our land is even richer than Nob Hill, and 200 feet higher, (1800 feet) the perfect elevation for fruit. All other crops yield prolific returns. Nob Hill apples are known and in strong demand the world over. These apples bring readily \$1.50 per dozen in Washington, D. C. Therefore the land that will grow such apples is the SAFEST, MOST PERMANENT AND BEST PAYING INVESTMENT OF THE AGE.

## Fabulous Prices Received

Developed fruit lands on Nob Hill and Selah, ADJOINING the lands of Maynard & Co., Inc., are now selling, have brought fabulous prices during recent years, as will be seen from transfers taken from the county recorder's office:  
March 11, 1919, D. E. Lesh to Reservoir Land Co., 70 acres, \$55,000.  
May 15, 1919, J. H. Maher & Co. to E. M. Carr, 40 acres, \$25,000.  
June 11, 1919, L. D. Luce to Edward Root, 20 acres, \$25,000.  
April 25, 1919, Alexander Burnham to George C. Walker, 11 acres, \$33,000.  
April 25, 1919, Alfred Henry to Robert Ray, 5 acres, \$30,000.  
May 4, 1919, E. L. Haney to M. N. Richards, 10 acres, \$12,500.  
May 6, 1919, W. D. Ingalls to W. F. McNeil, 20 acres, \$30,000.  
Five acres at North Yakima lately sold for \$35,000, 46 acres in Fruitvale, Nob Hill district, sold for \$170,000.

## Values of Lands

The market value of raw land under different Government reservoir system projects, is set forth in the following statement, wherein it will be seen that NORTH YAKIMA UNDER IRRIGATION LAND IS WORTH DOUBLE that of any other section. Prices are, per acre:

Project	Fruits	Non-Irrigated	Irrigated
Orland, California	Or. & Or.	\$50 to \$100	\$100 to \$750
Alta, California	Or. & Lem.	20 to 50	125 to 1000
Fresno, California	Gr. & Ral.	20 to 150	100 to 500
Grand Valley, Colorado	Ap. & Pch.	40 to 200	100 to 1000
YAKIMA, WASHINGTON	Ap. & Prs.	50 to 250	250 to 2000

Land at North Yakima that you can buy today at \$400 per acre will double in value in a year and treble in two years, producing with commercial orchards at the rate of \$1000 to \$2000 per acre in six to eight years. This is the last chance to get water for irrigation close to Yakima.

On August 21 a special excursion will tour the West, stopping at all principal cities and points of interest, including a thorough inspection of North Yakima Lands. The expense entire will be \$250 per person. To every person purchasing 20 acres I will refund the entire expense of trip, \$250. On 10 acre purchase I will refund one-half the expense and on 5 acre purchase I will refund one-fourth the expense. Personally I am the owner of 20 acres of North Yakima land, 10 acres purchased a year ago and 10 acres purchased 2 months ago.

## THEIR PLIGHT IS DESPERATE ONE

**AWAITING SUCCOR**

Group of Terrorized Americans Besieged by Mexican Bandits.

El Paso, Tex., July 24.—Huddled in the hotel and commissary at Madera, Chihuahua, with the powerful search light playing over the surrounding country at night, a little group of terrorized Americans wait the coming of the Mexican bandits who ride around the town like wolves waiting for a chance to spring at the throats of the "gringos."

This information was brought to the border by an American courier, who reached here after floundering 14 days in the mud and rain in an old back which he commandeered in a desperate effort to reach American soil and give the warning that the Americans in Madera were in the direst distress.

In addition to the mental anguish of waiting an attack from the bandits, who know and give no quarter, the Americans have almost exhausted the food which they had cached in the commissary. Mexicans who are living in the native quarter of the town are starving and the suffering is intense. The torrential rains have added to the discomfort of the besieged and there is much sickness in this quarter.

The courier's first statement upon arriving in El Paso was that if he had any of his own women in Madera he would get them out if it cost his life. The dread of what they could expect if the bandits arrived in the town was terrorizing the Americans, especially the women, of whom there are 10 in the camp.

**RAILROADS' SIDE OF IT**

Would Lose Millions If Burleson Order is Allowed to Stand.

Washington, July 24.—Railway representatives joined in the fight to prevent Postmaster General Burleson from increasing the size of parcel post packages transmissible through the mails and reducing the rates, to become effective Aug. 15. A delegation representing the railroads generally throughout the country laid their complaint before senators and representatives, and prepared to protest formally against the changes to the interstate commerce commission. The railway men claim the roads would lose millions if the Burleson order is allowed to stand.

The movement in the senate itself to forestall the department changes by repealing the section of the parcel post law under which the postmaster general claims the right to regulate rates and sizes further crystallized when Senator Bryan of Florida introduced a joint resolution to repeal the legislation in question.

## SAW DOGS FEED ON BODIES OF SOLDIERS.

Athens, Greece, July 24.—Commander Cardale of the British navy visited Doxato after the Bulgarians were driven out by the Greeks, and found bands of dogs feeding on the bodies of soldiers. Commander Cardale and his men saw 200 bodies, of which 20 were women and children, who had been murdered in one courtyard. All had been bayoneted and unspeakably mutilated.

## SOIL AND CLIMATE

The soil is of volcanic origin. Unlike eastern soil it contains no decayed vegetable matter, but is entirely mineral and 100 feet deep. The largest portion is potash, one of the principal ingredients of commercial fertilizers. Climatic and soil conditions harmonize perfectly and nature here is at her best. Trees grow as big here in 3 years as they do in 6 years elsewhere. Buds are 3 to 4 weeks later than in other places, thereby escaping all danger from frost. A crop is certain every year.

## NORTH YAKIMA CITY

North Yakima is the best city of its size in the U. S. It is a principal stopping point on two great transcontinental railways, the main line of the Northern Pacific and the Oregon-Washington Ry. & Navigation Co. It is the county seat and has a court house, costing \$125,000, a Federal building costing \$180,000. High school, \$125,000; 7 public schools, \$250,000; Masonic Temple, \$150,000; Y. M. C. A. \$85,000; 5 stone churches \$225,000; 10 frame churches, public library, \$18,500, etc.

Population, 1900, 3,156  
Population, 1905, 7,000  
Population, 1910, 14,082  
An increase of 346 1/2 per cent in ten years. In the same ten years the bank deposits increased at even a greater rate, viz., from \$1,027,078 in 1909 to \$5,188,600 in 1910!

Its streets are 100 feet wide, clean, well paved and beautifully lighted. Its main business street, Yakima avenue, is built entirely of stone and brick, not a frame building in the business district.

The principal residence street, Naches avenue, is a prettier street than any residence street in Washington, D. C.

the embargo against the shipment on arms to the revolutionists or the Constitutionalist party, as they call themselves.

In fact, he had been strongly urged to take this course on the ground that it would be the fairest way of ending the discrimination against them. But the President, after mature reflection, concluded that the safer policy would be to place the embargo against the de facto government of General Huerta as well.

This seemed to him less like a recognition of Constitutionalist as belligerents, and since he has been unwilling to recognize Huerta he believed he should take no action which could be construed as recognition of the revolutionists, particularly at this time.

### MAY WEAKEN HUERTA.

An yet the prevailing opinion here is that the inhibition against the transportation of arms to Huerta will serve to encourage the revolutionists and to weaken the rapidly diminishing prestige and power of the Provisional government. All reports that have been received by the President are to the effect that the Huerta regime is tottering, and that it cannot maintain itself much longer. The President's action, therefore, may prove to be the one blow that is necessary to end the career of Huerta as the head of the turbulent republic inasmuch as it is another manifestation of the disapproval of this government of the manner in which Huerta forced himself into the chief magistracy.

It is not supposed that Huerta will be unable to obtain guns despite the embargo placed upon such consignments from the United States. But he will experience greater difficulty than heretofore. An American living in Mexico City, who has just arrived in Washington, stated tonight that Huerta has ordered 50,000 stands of arms from Japan and that undoubtedly he could get supplies from Germany or some other European country that is engaged in the manufacture of arms—provided, of course, he has the money to pay for them.

### MORAL EFFECT INVOLVED.

Consequently it is the moral effect of the President's embargo which will count in the event anything is accomplished thereby. The Constitutionalist will be encouraged to battle more vigorously for the downfall of Huerta, while the supporters of the general will be disposed, it is thought, to desert him.

Another step which President Wilson has under consideration preliminary to intervention is a proposition for the belligerents to mediate. Just how mediation is to be brought about, if it can be effected, has not yet been explained.

As suggested this evening, the plan is to propose to the warring elements that they lay down their arms and arrange for a national election which shall choose a new president.

The constitution of Mexico provides that a national election cannot be held while a state of revolution exists, and, therefore, the election which General Huerta announced would take place in October cannot be held. Thus, it would be absolutely necessary for the fighting to cease before an election could be arranged.

No definite conclusion as to the proffer of mediation had been reached by the president tonight.

## HOW MANY BICYCLES ARE IN USE TODAY?

Interesting Sidelights on an Interesting Business

If the question at the head of this article were asked one hundred people, the chances are that ninety-nine of them would think a minute and then say, "Oh, not many—possibly five or ten thousand in the whole country."

But the ninety-nine would be very much in the wrong.

At a recent meeting of the bicycle manufacturers of the country, figures of output were shown, which demonstrated that 1913 will be the biggest year in the history of the business—larger by far than the years during the middle '90's when the so-called bicycle craze was at its height.

One concern in Ohio, the Miami Cycle & Manufacturing Company, at Middletown, will make 75,000 bicycles this year; with a demand, if they could fill it, for half as many more.

The average person is apt to wonder where all these wheels are sold and to imagine that perhaps the greater part of them are exported to foreign countries. As a matter of fact, the export trade on bicycles

constitutes a very small percentage—by far the greater majority of the machines manufactured being sold right in the United States.

Where do all the bicycles go?

Look into any of the hundreds of manufacturing towns which dot the country for the answer.

Around every factory you will see long lines of bicycle racks and every rack filled with wheels. The factory worker using a bicycle to ride to and from work, saves the cost of carfare, or is enabled to live where street car service does not penetrate. And in addition he gets fresh air and just the kind of exercise he needs to keep him in perfect trim.

But even in towns where the street car service is thorough, the bicycle holds its place.

It is safe to say that the bicycle never will be superseded in its special field. In fact, the business is only in its infancy, and the next twenty-five years will see earnings compared with which the profits of the early days—big as they were—will seem small.

## BIGGEST "CROW" COMPANY M IS ENJOYING SO FAR IS ONE BY SUPERINTENDENT OF XENIA WORKS

Boss of the Xenia Work House Says "Nay" to Request of County Commissioners to Release One Alfred Brown From Custody—Cawn't Do It Legally Doncher Know.

### TALKS WITH MAYOR SMITH ABOUT CASE ON TUESDAY

Mayor Is Reported to Have Told Crow That County Commissioners Wanted to Send an Attorney to Board Meeting.

According to reports from Xenia the Commissioners of this county will make another effort to secure the release of Alfred Brown who is serving a sentence in the Xenia work house and whose release upon instructions from the local Commissioners was refused by Supt. D. E. Crow, who held the order was illegal. The affair has aroused a great deal of interest in this and Greene county.

Prosecutor Tom S. Maddox, when asked his opinion on the action of the Board of Commissioners in seeking the release of Brown, stated that he doubted the authority of the Board to act in the case. In their letter seeking the release of Brown the Commissioners said in part: "You may release the said Alfred Brown at once and render your bill accordingly as we do not desire further expense in the said case."

The latest interesting development in the affair is given by the Xenia Gazette of Wednesday, which says:

"Supt. D. E. Crow, of the Xenia work house, had a long distance telephone conversation Tuesday evening with Mayor Harve W. Smith, of Washington C. H. On Monday Mr. Crow informed the Commissioners of Fayette county that their order directing him to release Alfred Brown, a Fayette county bootlegger, was illegal and could not be complied with, but that the matter would be referred to the Board of Workhouse Directors. The Commissioners demanded Brown's release on the grounds that he had been convicted by a pre-judged court. Mayor Smith called up Supt. Crow for the purpose of ascertaining when the Workhouse Board would meet and to inform him that the Fayette county commissioners would like to be represented at that meeting by an attorney. Mr. Crow gave him the desired information."

Rifle Practice Attracts Attention and Affords Much Relief to Monotony of Drill Work and Camp Life in General—Much War Talk Indulged In and Many Are Confident They Will Soon be on Way to Mexico—Company M Will Return Home Sunday.

Word from Company M of this city, now encamped at Camp Perry on the beautiful shore of Lake Erie, states that all members of the company are well and enjoying the camp life as usual, although the hard drills have made many of them weary. However the weather has been cool and none of the boys have had occasion to complain of the intense heat.

Five regular army officers are on the ground this year and one of the strong points of the camp is the attention paid to officers' schools. The feeling exists among the several hundred Guards now in camp that they will all soon assemble for duty in Mexico, and much Mexican war talks prevail from early until late, with everyone eager to see what the latest war news is.

The very best of order has prevailed in the camp, and the prediction has been made that the guard house will hold fewer offenders this year than ever before and that all records for decorum will be broken.

Accidents on the rifle range will also be prevented if the orders of Col. Byron L. Bargar are carried out. He has issued a general bulletin impressing upon the guards the importance of utmost care in handling firearms. No guns may be loaded except on the firing line, and the muzzle of the gun must be kept in the direction of the target until discharged.

No ammunition is issued until the man is at his post ready for target practice, and no man is allowed to carry away a single loaded cartridge. All men in the vicinity of the firing line must carry their guns with open chambers.

The rifle range is a point of particular interest. Various distances are provided for the soldiers to take their turns in shooting. Telephones are in constant use, connecting activities at the firing line and at the target.

Immediately back of the targets is Lake Erie, and the echoes reverberate time after time with every shot.

Four days are to be spent in drill work and two in target practice. Many visitors have inspected the camp, watched the drills and target practice. Company M has proven a model company while in camp. Camp will be broken Sunday and the local company will reach home some time during the day.

WHEN CALLAHAN TOOK THE SPUNK OUT OF A FAN.

Manager Jimmy Callahan of the Chicago White Sox took a great deal of spunk out of a baseball fan who wanted to tell him how to run the team. Callahan was watching Cleotie and Walsh warming up. "Say, Cal," yelled this fan from a box seat, "don't pitch Walsh today. He hasn't got a thing but that glove. I have been watching him warm up." Callahan walked over to the box where the box manager was seated and batted this out: "Say, I've been looking you over for a long time, and you seem to know a great deal about the game. Now, if you would only plant yourself in a box close to our bench every day you would save me a great deal of trouble. As it is now I have to know how my ball club is getting along and what is going on. With you on the job there would not be a hitch and I would not be making so many mistakes. Be sure to sit there tomorrow, will you? Or perhaps you would like to put on a uniform." Said fan sneaked out of the park like a burglar, and Callahan has not seen him since that day.

MILLER HUGGINS MAY RESIGN AS LEADER OF THE ST. LOUIS CARDINALS

St. Louis, July 24.—It is rumored here that Miller Huggins, manager of the St. Louis Cardinals, is tired of his job as leader and will resign at the end of the season. It is said that the failure of the team to make a creditable showing in the present campaign has caused Huggins to think of throwing up the reins. Many critics here were of the opinion last spring that the team had an excellent chance to finish in the first division, but now these same critics have relegated the Cardinals to a sure second division berth. Miller cannot be put down as a rank failure as a leader of a team. He has proved himself an able leader, but the material on hand is considered poor.

ONE PLAYER MAINSPRING OF NEARLY EVERY CLUB

It takes nine tailors to make a man, and it is a common belief that it takes nine players to make a ball team. However, we are rising to remark that sometimes just one man comes mighty close to being a whole ball aggregation. We will attempt to prove this by inverse ratio, so to speak. Just suppose somebody came along and shanghaied Walter Johnson, wouldn't that mean that the Nationals would be drifting on board a ship without a mainmast? Wouldn't it? And just supposing "Napoleon" Rucker became afflicted with a severe attack of holdoutphobia. Where would Brooklyn be in the percentage table? And what would the Cubs be without James Archer or the Giants without McGraw or the White Sox with Walsh among those absent? Do you think the Red Sox would have had a chance to be world's champions if a young man named Joseph Wood hadn't been born? How about the part Bob Bescher plays with the Reds? Don't you think every loyal citizen of Philadelphia would put crape around his sombrero if John Franklin Baker got tired of breaking up games and decided to remove himself far from the care and strife and live the happy life of a farmer? And what would the Phillies be doing without Doolin? We refuse to say anything about the Braves, the Browns or the Cardinals. But we insist upon mentioning Cobb of Detroit and Lajoie of Cleveland.

NEIGHBORS PUT LID ON "DODGERS"

Local merchants who have had their men in Greenfield and Sabina recently for the purpose of passing circulars or "dodgers," state that they have been compelled to cease as business in each place forbid the scattering of circulars or advertising matter by non-residents of the places. "It is not a fair proposition," said one merchant in speaking of the affair, "up here when any of the citizens from either town care to hand out their advertising matter we say, 'come on boys, it's all right,' but the moment we start to circulate their towns we are quickly informed that there is nothing doing."

YOUNG PAINTER BREAKS HIS HIP

Ray Smiley, aged 17, residing at Williamsport, fell from the roof of a barn he was painting in New Holland Wednesday and suffered a broken hip. He was removed to his home and the broken bones placed in position. The young man will not be able to continue his work for several months, and may be crippled permanently. At a meeting of the local scout council held on Wednesday night at the Y. M. C. A., it was decided to run the annual camp from August 14th to 18th. The site selected is about a mile from the caves in Highland county and about 3 1/2 miles from Bainbridge. Located as the camp will be in this beautiful section of country amid the hills, and along the main branch of the Paint creek, with fine fishing, boating and camping. The camp is to be open to all boys over 11 years whether scouts or not, but all must abide by scout rules and regulations. The cost will be \$5.00 per boy for the two weeks, this does not include transportation. Applications can be had at the Y. M. C. A. building and must be in not later than August 1st, accompanied by \$1.00 which is a part of the amount charged. Ray F. Zinner, Scout Commissioner and Secretary of the Y. M. C. A. will have charge of the camp, and will be assisted by several of the officers of the organization. Now boys get busy if you want to go camping. Then She Got Mad. "I've never seen the man yet," she declared, "who couldn't be made a fool of by a pretty woman." "Oh!" he replied, "of course you, I take it, have studied the matter from the standpoint of the innocent bystander." Philadelphia Ledger.
